

# Shepherd Pathways Post-Acute Brain Injury Services

## Fact Sheet

---

For people experiencing complex injury or illness, Shepherd Center provides a comprehensive continuum of clinical care, research, and family support. Ranked by *U.S. News* as one of the nation's top 10 hospitals for rehabilitation and the best in the Southeast, Shepherd Center treats more than 850 inpatients and 7,600 outpatients annually with unmatched expertise and unwavering compassion to help them begin again.

With the goal of community reintegration, Shepherd Pathways, located in Decatur, Georgia, provides extraordinary and expert outpatient care for people with brain injuries from a multidisciplinary team of rehabilitation specialists.

Shepherd Pathways offers services in a variety of settings to meet client needs:

- Day Program
- Outpatient Services
- Residential Program
- Telehealth Services

### Client/Family-Centered Care

We were founded by a family, and that continues to be the cornerstone of our culture. In collaboration, clients, family members, caregivers, and payor sources develop personalized treatment plans. Clients and their families are an integral part of the treatment team.

### Housing

Shepherd Pathways provides time-limited access to donor-funded housing to patients and families. To be eligible for housing, patients must be referred directly from Shepherd Center's inpatient program, and both the patient and family must live more than 60 miles from Shepherd Center's main campus in Atlanta.

### Specialized Neurologic Rehabilitation

Our integrated multidisciplinary approach ensures that every action works together to achieve the best outcomes for our clients:

- Physiatrist – Medical Management
- Exercise Physiology
- Vocational Services
- Neuropsychology
- Individual and Family Counseling
- Case Management
- Family Education and Training
- Nursing
- Physical Therapy
- Occupational Therapy
- Speech Therapy
- Therapeutic Recreation

### Added Value Programs

Shepherd Pathways has the resources to offer various sub-specialized programs that personalize care to ensure clients continue to exceed expectations once they return home.

- Return-to-Work
- Pre-Driving
- Vestibular Rehabilitation
- Dysphagia Rehabilitation
- Cognitive Rehabilitation
- Health and Wellness
- Adolescent Program
- Edema Management
- Vision Program
- Activity-Based therapy
